## **EASTERN ANATOLIA EXPORTERS ASSOCIATION**

Eastern Anatolia Exporters' Association (DAIB) was established in 1937 following the personal directive of Gazi Mustafa Kemal, Liberator and the Founder of the modern Turkish Republic.

Eastern Anatolia Exporters' Association started as a corporation and directly exported the products of the cattle breeders and farmers located in East Anatolia. In the following years due the changes in legislation, Eastern Anatolia Exporters' Association became a semi-government agency, which helps its members in developing their businesses aboard and increasing their exports.

Today, Eastern Anatolia Exporters' Association has more than 4,000 members and most of these members produce food, agricultural products and livestock. The combined annual export volume of DAIB members amounted USD 2 Billion in 2018 and we continuously support our members to increase this export volume.
