

OCA
GLOBAL

The image features a background of a wind farm at sunset or sunrise, with a large wind turbine in the foreground and several others in the distance. The sky is a deep red, and the landscape is dark. The OCA Global logo is overlaid on the right side of the image. The logo consists of the letters 'OCA' in a bold, white, sans-serif font, with a red checkmark integrated into the letter 'A'. Below 'OCA' is the word 'GLOBAL' in a smaller, white, sans-serif font.

In a world that advances and changes faster every day, the risks that companies must assume are increasing. From OCA Global, we provide the security to our clients that **nothing is left to chance.**

We offer a wide range of customized solutions to help our customers **improve efficiency, safety and reliability of its processes, assets, projects and products** while we reduce the associated risks.

We are world experts in inspection services, verification, testing and certification.

INTERNATIONAL PRESENCE

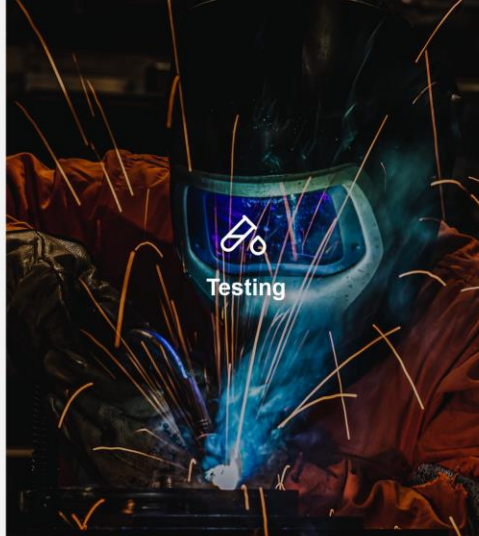

A photograph of an offshore wind farm at sunset. Several white wind turbines are visible in the distance, silhouetted against a sky with orange and yellow hues. In the foreground, a wooden pier or walkway leads towards the water. A large red diagonal graphic element is on the right side of the image.

TESTING

“**OCA Global**, a leader in testing, inspection and certification services, has acquired **Compcontrol ING**, a Romanian company specializing in non-destructive testing. Founded in 1997, **Compcontrol ING** has excelled in the petrochemical, aerospace, and energy industries. The company boasts a team of level II and III specialists authorized by ISCIR and CNCAN, providing regular services at the Cernavoda nuclear plant. This acquisition strengthens **OCA Global**'s global presence and reinforces its commitment to excellence in testing, inspection and certification in key sectors.”

AN OCA GLOBAL COMPANY

TESTING

SERVICES

- Conventional and Advanced NDT (UT, MT, PT, ET, LT RT)
- Consulting in the NDT field
- Software products specialized for NDT examinations
- Design and homologation of NDT devices and accessories
